**P/C/D/PL/10 Photographs and slides from Powys County Council Planning Department Acc 1799**

As far as possible, these slides and photographs have been listed under the relevant county, which is then subdivided into specific towns or villages. Some of the images were in boxes of suspended plastic wallets. They have been removed from the wallets for preservation reasons, but have been kept in their original groupings, and listed under one catalogue number. Where the group has items from different counties, they have been listed under the county to which the majority relate. There is a section at the end of the catalogue for groupings which are very general, and unidentified pictures
